Database	SQL, CSV, JSON
Framework	Django, Bootstrap
API	Facebook, Twitter, YouTube

PROJECTS

CONTENT BASED ANALYSIS ON MARKETING THROUGH FACEBOOK (MINOR-2)

Analyzed the different ways of Marketing through Facebook, by crawling and using Facebook APIs to fetch data about Sponsored Pages, Posts and Redirection to WebSites.
A web application was developed containing sub sections, analyzing each type of Advertisement - Pages, Posts, Site Redirection, along with a comparison for Pages and Posts.
The goal was to report whether the advertisement was favorable or not, based on the available data.

Python, Django, Bootstrap, JavaScript, Morris Graph, Facebook API
link : github.com/linkRachit/Marketing-through-Facebook.

BUG LOCATOR (MINOR-1)

The application helps the user by showing some part of code of a programming file by searching the keyword which is entered by the user.

Python, Django, Bootstrap, JavaScript
link : github.com/linkRachit/Locate-Your-Bugs
